VELLUTIER

JEWELLERS OF FRAGRANCE

This slogan appeared in our heads intuitively,
because we approach the production of our candles with the same
accuracy like jewellers who polish the most beautiful diamonds.

Just like they carefully choose the best stones to polish,
just we also select with great accuracy the best quality raw materials
to be able to offer you a top shelf product.

The testimony of our efforts is elaborately refined,
subtle fragrances hidden in unusually velvety wax.

From the deep need to find the highest quality,
sealed with years of searching, candles were born whose finish,
appearance and the content meet our expectations.

Vellutier® are candles in which global design and elegance meet in one place.
Our passion for above-average solutions has always pushed us to search for real gems,
jewels in the surrounding reality. Inspired by the perfection of nature,
innovation of technical thought and the charismatic nature of unusual places and stories,
we have created exclusive and unique candles which,
present change in the surrounding space.

Achieving heights at every stage of production was possible
thanks to the cooperation of brilliant artists and specialists in the field of glass design,
woodworking and honoured masters of world perfumery.

Real jewels - Vellutier® candles have been hidden in the highest quality,
special recipe velvety wax and packed in a unique glass dedicated to our brand.
Its sophisticated shape, with its characteristic two-angled cut,
forms a perfect figure with a precisely matched lid made of real wood.
A heraldic logo engraved in the wooden lid emphasizes
the uniqueness of the noble material, revealing its unique structure.

Vellutier® candles have a special cotton wick which is made
with addition of Egyptian cotton. To make it we use the highest quality cotton
which allows the candle to burn with a nice, clean flame.

Vellutier® fragrances are carefully selected elegant compositions
that take us to distant places by telling, through the unique notes sunk in them,
exciting stories from the most beautiful corners of the world.

Thanks to an elegant yet simple form
and extremely precise finish,
Vellutier® candles are a great decoration
of any interior, and the unique fragrances
of our candles, created in the best
perfume houses in Europe,
reach the most sophisticated tastes.

The unique recipe of our wax
was created in Great Britain and is the result
of our many years of research in this field.

The wax in Vellutier® candles has beautiful, velvety structure,
hence derives the name of the brand Vellutier®
- from Italian *velluto* which means velvet.

We are proud of our wax,
that's why we do not cover it in lacquered containers,
our glass has a unique shape and extremely
clean structure that underlines its "luxuriousness".

Our wax blend is based on rapeseed wax
from regional European crops.
It allows us to get the effect of a creamy candle that looks
beautiful, smells natural and burns very well.

Elegant, wooden and very boutique boxes
conceal a real jewel: original recipe velvet wax
melt wrapped in a stylish tissue, created from carefully
selected, top-quality, safe ingredients.

Created especially for us, complex fragrances
of our wax melts are the work of honoured masters of world
perfumery. Thanks to their unique notes they take us to
distant places, telling exciting stories from the most
beautiful corners of the world.

Because of its exquisite form our wax melt
wooden boxes are an ideal gift for anyone
who appreciates exceptional quality.

Elegant and tasteful, Vellutier® matches
suit perfectly to all our products.

Thanks to their elongated form,
they easily light candles at each stage of burning.

It's the perfect and practical addition to every candle.

The stylish Vellutier® bag is also very durable.

It's an ideal addition to Vellutier candles
which emphasize their exceptional quality.

Our bag is great to pack a chosen candle gift.

GRAND COLLECTION
