JEWELLERS OF FRAGRANCE

This slogan appeared in our heads intuitively, because we approach the production of our candles with the same accuracy like jewellers who polish the most beautiful diamonds.

Just like they carefully choose the best stones to polish, just we also select with great accuracy the best quality raw materials to be able to offer you a top shelf product.

The testimony of our efforts is elaborately refined, subtle fragrances hidden in unusually velvety wax.

— PRESTIGE —

PRESTIGE is a unique collection of rare fragrance compositions crafted for true aroma connoisseurs.

We have enclosed five unforgettable, specially designed fragrances, infused into our velvety wax, in elegantly shaped glasses characteristic of our brand,

featuring beautiful metallic colors: yellow and pink gold, platinum, titanium and copper.

This innovative technique enhances the strength and durability of the products while combining high-gloss quality with environmental friendliness.

PRESTIGE candle is adorned with a heraldic logo embossed on the glass, lending the entire collection a distinguished character.

To further emphasize the uniqueness of the collection, we have created stylish, high-class packaging that not only decorates but also protects the valuable contents.

DISPLAY

To properly showcase the richness and beauty of the Prestige collection, we have designed elegant, enclosed displays.

Their deep black color evokes the classic form of a violin case, while the lacquered surface adds an evening touch.

A GOLDEN HERALDIC LOGO, placed in the center, enhances the display's understated elegance.

THE VELVET-LINED INTERIOR ensures the candles are safely and attractively displayed.

THE SOPHISTICATED TONE OF THE DISPLAY highlights the unique features of the Prestige candles, providing them with an appropriate setting.
